The Elite Designs Standard: Good Design is Good Business

In modern commerce, design is never merely decorative — it is your most powerful sales asset. A poorly constructed logo or pixelated marketing flyer instantly lowers your perceived market value, allowing competitors to undercut your prices. Every asset produced by Elite Designs adheres to four strict professional guarantees:

- **100% Vector Scalability:** Master files delivered in industry-standard Adobe Illustrator (AI), EPS, and SVG formats.
- **Print-Ready Calibration:** CMYK color profiles, 300+ DPI resolution, bleed and crop marks for flawless commercial printing.
- **Digital Optimization:** Web-optimized sRGB, lightweight PNG, WebP, and social-ready aspect ratios.
- **Full Ownership Transfer:** Complete copyright and commercial usage rights assigned to your company upon project completion.
