Good Design is Good Business

Graphic Design Presentation & Sales Pitch Guide

Word-for-Word Verbal & WhatsApp Scripts to Confidently Present the 2026 Catalog

How to Use This Guide: Whenever a prospect inquires about graphic design, logos, packaging, or social media branding, send the official **Elite Designs Portfolio PDF** alongside these exact scripts. These words anchor your work as an investment that drives customer acquisition rather than a cheap expense.

1. The Instant WhatsApp / Email Dispatch Script

EXACT WHATSAPP / EMAIL ACCOMPANYING SCRIPT

"Hi [Client Name]! As promised, attached is the official 2026 Graphic Design Catalog and Rate Card from Elite Designs Kenya.

Inside, you will find our complete published pricing and deliverables across all 6 visual design pillars — from brand identity and high-impact product packaging to print collateral and social media retainers.

Every asset we design includes full vector source files (AI/EPS), print-ready CMYK calibration, and 100% commercial ownership so your brand looks world-class from day one.

Take a quick flip through pages 3 to 10. Which specific item or package are you looking to execute first?"

Pro-Tip: Send this immediately along with the PDF attachment. It prompts the client to name their priority item right away.

2. The Verbal Pitch Hook (Phone Calls & Boardroom Pitch)

THE 30-SECOND AUTHORITY PITCH

"Here is what most business owners overlook: Good design is never just decoration; it is your direct sales leverage. In Kenya today, customers judge your credibility within 3 seconds of seeing your logo, flyer, or packaging. If it looks amateur, they immediately assume your service is low quality and haggle down your price.

At Elite Designs, our goal is to make your business look like the undeniable premium authority in your industry so you can command higher prices with confidence."

Pro-Tip: Memorize this hook. It stops price negotiations before they even start by framing design as price protection.

3. Category-by-Category Presentation Scripts

Use these exact spoken soundbites when walking a client through specific catalog pages.

WHEN PITCHING CATEGORY 01: BRAND IDENTITY & LOGOS (KSH. 6,500 – 13,500)

"When we design your logo (Page 3), we don't just send a flat JPEG. You get a complete master vector suite (AI, EPS, SVG) that you can scale from a WhatsApp profile picture to a 40-foot highway billboard without losing a single pixel of sharpness. Our Logo & Stationery package at Ksh. 9,500 gives you immediate corporate legitimacy with matching letterheads and executive cards."

Pro-Tip: Emphasize vector scalability and corporate legitimacy. Remind them that amateur logos become blurry on print.

WHEN PITCHING CATEGORY 02: PACKAGING & LABELS (KSH. 1,000 – 8,000)

"For your product labels and packaging (Page 4), amateur artwork causes costly printer rejects and regulatory headaches. We build your packaging to exact printer dielines with calibrated bleed margins, spot UV layers, and barcode clearances. Whether it is retail boxes or jar labels from Ksh. 3,000, your product will stand out on any supermarket shelf."

Pro-Tip: Crucial for FMCG, food, cosmetics, and beverage clients. Emphasize printer compliance and shelf appeal.

WHEN PITCHING CATEGORY 03: SOCIAL MEDIA & CREATIVES (KSH. 1,500 – 22,000)

"Hiring a full-time in-house graphic designer in Nairobi costs between Ksh. 35,000 and 50,000 a month plus overhead. With our Monthly Social Media Management retainer at Ksh. 22,000 (Page 6), you get up to 16 agency-grade, thumb-stopping creatives designed to turn mobile scrollers into paying WhatsApp customers, saving you over 50% on payroll."

Pro-Tip: Anchor against the high cost of hiring an in-house employee. Business owners love saving money on overhead.

WHEN PITCHING CATEGORIES 04 & 05: COLLATERAL & CORPORATE STATIONERY

"Your Company Profile (Page 7, Ksh. 6,500) is your silent 24/7 salesperson in tenders and corporate procurement. We format it specifically to pass institutional vendor reviews. Combined with our matching executive stationery (Page 9), corporate clients will never question whether your firm is established."

Pro-Tip: Use this for B2B service firms, consultants, contractors, NGOs, and medical clinics.

4. Objection Handling & Closing Frameworks

Word-for-word scripts to turn hesitation into paid deposits.

OBJECTION 1: 'CAN YOU GIVE ME A DISCOUNT?'

"I completely respect your budget! Our rates are strictly calibrated to deliver senior-level, award-winning craftsmanship and full vector source ownership. If Ksh. [X] is slightly above your initial allocation today, we can start with [Alternative Item, e.g. express logo or single flyer at Ksh. 1,500] to get your campaign live, and upgrade as your revenue rolls in. Fair enough?"

Pro-Tip: Never drop your price without reducing scope. Offer an entry-level package instead to maintain your high-end positioning.

OBJECTION 2: 'WHY SHOULDN'T I JUST USE CANVA OR AN AMATEUR?'

"You certainly can find low-cost templates on Canva or Facebook, but here is what happens when you try to print them: the colors print muddy, the text is blurry, and you don't own the master vector rights. When you work with Elite Designs, you are getting print-calibrated, trademarkable artwork from the winners of the Digitally Fit Awards. That peace of mind protects your brand reputation permanently."

Pro-Tip: Remind them that cheap design costs 10x more when you have to throw away 5,000 badly printed flyers.

OBJECTION 3: 'WHAT IF I DON'T LIKE THE DESIGN?'

"That is exactly why we offer our Ironclad Risk Reversal: You only put down a 50% deposit to initiate the sprint. We present 3 unique creative concepts and refine your favorite option through up to 3 revision rounds. You clear the remaining 50% balance ONLY after you are 100% delighted with the final result."

Pro-Tip: The 50% live inspection guarantee completely removes fear and secures instant buy-in.

THE 1-CLICK CLOSING SCRIPT (CLOSING THE DEAL)

"To get your design sprint scheduled for this week, we just need your brand brief and the 50% initiation deposit. You will receive your first set of 3D concept mockups within 48 to 72 hours. Shall I send over the M-Pesa details so we begin?"

Pro-Tip: Direct, confident, and professional. Always assume the close and ask for the initiation deposit.
