Meeting Talking Points & Closing Words

Read these exact word-for-word lines to present the packages and close the deal.

1. THE 20-SECOND VALUE PROPOSITION

"When launching or growing your business, your branding directly determines your pricing power. If your visual identity, company profile, and stationery look pieced together or amateur, corporate clients assume you are a high-risk vendor and haggle down your fees. We created these all-inclusive packages so your business presents immediate institutional credibility in boardroom meetings, tenders, and client presentations."

2. WHY THE GOLD PACKAGE (KES 35,000) IS THE RECOMMENDED CHOICE

"Our flagship recommendation is the **Gold Growth Package at KES 35,000**. It gives you a complete corporate branding powerhouse: a master vector logo, an official **6–8 page Company Profile** for tenders and investors, executive business cards for up to 3 staff members, official letterhead, corporate envelopes, compliment slips, presentation folders, and your official **corporate calendar**. In 4 to 5 days, your startup looks like an established multi-million shilling enterprise."

3. RISK REVERSAL & THE CLOSING ASK

Zero Risk Commercial Terms: You only pay a **50% deposit** to initiate the sprint. We present initial concept mockups within 48 to 72 hours, refine them through dedicated revision rounds, and you only clear the remaining 50% balance after you inspect and approve your final live brand suite.

The Direct Closing Ask:
'Between the Silver at 22.5k and the Gold at 35k with the full Company Profile and Stationery, which one matches your immediate launch timeline best? We can lock in your 50% deposit today and start your concept sprint immediately.'
